**** Supplementary child benefit**

A monthly allowance is granted for each of the scholarship holder's children under the age of 18 (Section 2 subsection 1 numbers 1 and 2 of the Federal Child Benefit Act (BKGG)) on presentation of a birth certificate. When a child is born, the full amount is granted for the month of birth. Changes that result in a recalculation of the child supplement take effect in the month of introduction. A sum of €400 will be paid for the first child. This sum is increased by €100 for each additional child. Children of the scholarship holder's partner may be taken into account, if it can be credibly proven to the scholarship office that they were already living in the scholarship holder's household before the scholarship was awarded (e.g. proof from the residents' registration office). The supplementary child benefit is offset against benefits received under the federal parental allowance and parental leave act (Gesetz zum Elterngeld und zur Elternzeit, BEEG) and the state child-raising allowance laws.
